

Danni da cimice

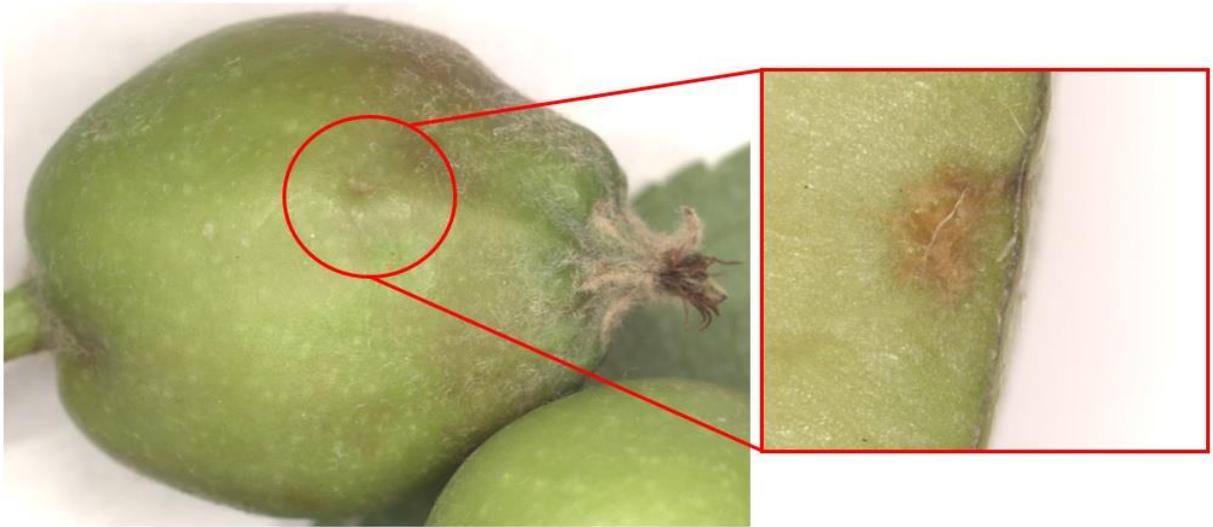

Per poter riconoscere i danni da cimici bisogna tenere conto di alcuni particolari:

- ❖ Deformazione del frutto e ossidazioni nei tessuti circostanti la puntura
- ❖ Tessuti del pericarpo ossidati sottostanti alla deformazione oppure alla puntura con un lieve distacco dalla buccia del frutto

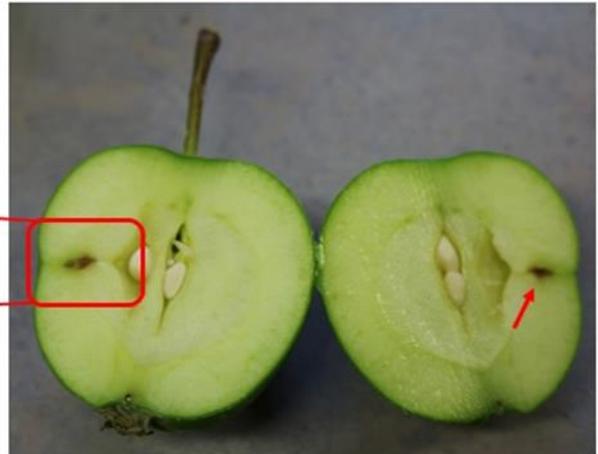

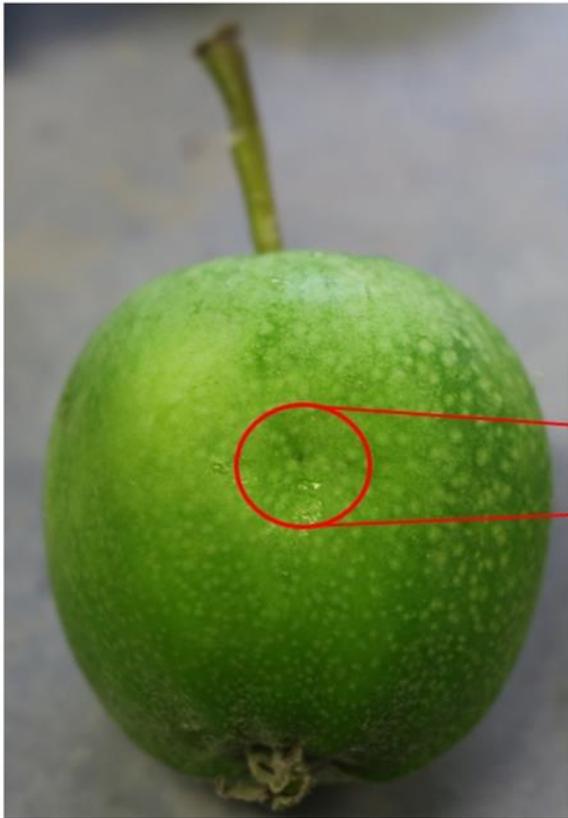

Granny Smith, 11.06.2019

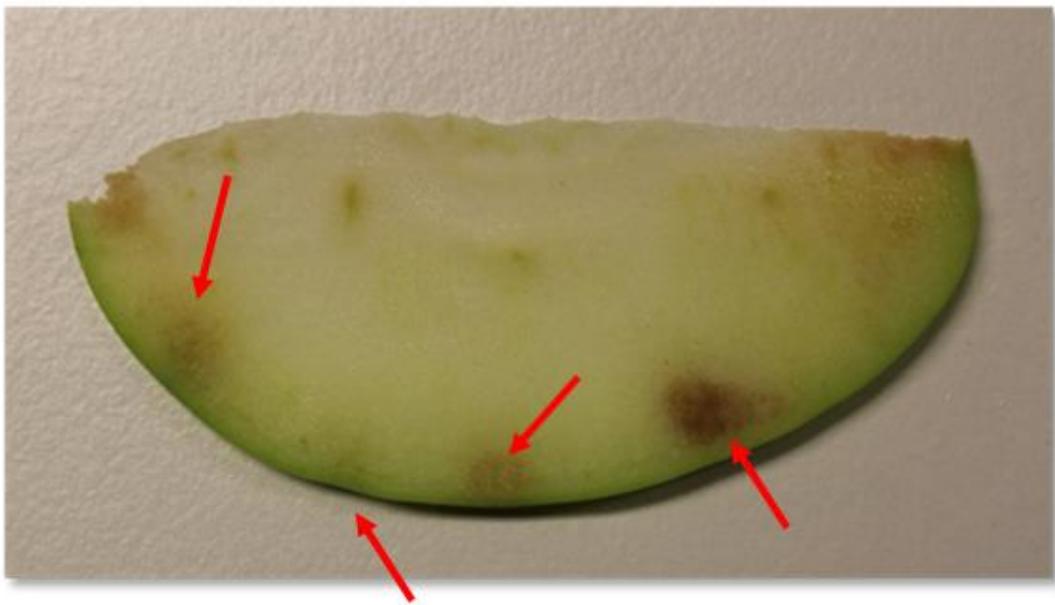

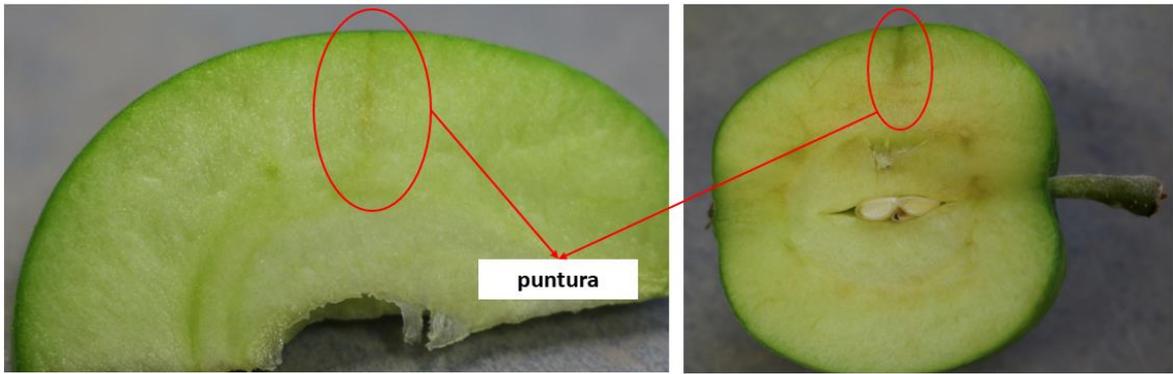

Golden Delicious, 16.05.2019

Granny Smith, 27.06.2019

Golden Delicious, 20.07.2017

Altri sintomi (esempi)

❖ Curculionidae:

❖ carenze nutrizionali:
